

About Us

Integrated solutions for wind, energy and infrastructure

Broadwind Energy (NASDAQ: BWEN) applies decades of deep industrial expertise to innovate integrated solutions for customers in the energy and infrastructure markets. Through a unique combination of welding, gearing, and services, we have solutions for the energy needs of the future — today. With facilities throughout the U.S., Broadwind Energy's talented team is committed to helping customers maximize performance of their investments — quicker, easier and smarter. Build it better. Build it with Broadwind. www.bwen.com.

Industries Served

Wind

Broadwind Energy is the only company that provides the unique combination of towers, gearing and services to the wind industry. Broadwind manufactures wind towers and gearboxes, and provides the highest level of service, including gearbox remanufacturing, blade repair and operations and maintenance services to wind developers and OEMs.

Oil, Gas and Mining

Known as a total solution provider of high quality industrial and engineered drive gearing since 1924, Broadwind Energy enables rugged industrial applications around the world – every day. Our gearing is found in enclosed drives, pumps, mill pinions, moveable structures, off-highway vehicle planetarys and test stands. From oil and natural gas and mining to steel, power generation, industrial processing and material handling, Broadwind's heritage of gearing innovation is enabling the future of energy – now.

Infrastructure

Broadwind Energy offers the infrastructure industry unparalleled welding, fabrication and machining experience, drawing strength from a rich heritage of more than 100 years in specialty heavy weldments. Working on weldments large and small, we have solved complex problems for customers in mining, rigging, fire apparatus, crawler cranes, medical and oil exploration.
